Practical 12: Event Management CRUD with Poster Upload and File Validation

Problem definition
Develop event management functionality for admin users. Admin can add, view, update, delete, and upload event posters with file type and file size validation.

Key questions
1. Are add, update, and delete functionalities implemented correctly?
Yes, add, update, and delete functionalities are implemented.

2. Is the UI linked with the database correctly?
Yes, the UI is connected to the MySQL database using PHP.

3. Are poster uploads validated for type and size?
Yes, poster uploads are validated for file type and size (maximum 2 MB).

4. Are success and failure messages displayed?
Yes, success and failure messages are displayed.

Code

Db.php

```php
<?php
$conn = mysqli_connect("localhost", "root", "", "event_db");

if (!$conn) {
    die("Database connection failed");
}
?>
```

Add_event.php

```php
<?php
include 'db.php';

$msg = "";

if (isset($_POST['submit'])) {
    $name = trim($_POST['event_name']);
```

```
    $date = $_POST['event_date'];
    $desc = trim($_POST['description']);

    if ($name == "" || $date == "") {
        $msg = "Please fill required fields!";
    } elseif (!isset($_FILES['poster']) ||
              $_FILES['poster']['error'] != 0) {
        $msg = "Please upload a valid poster!";
    } else {
        $file = $_FILES['poster'];
        $allowed = ['jpg', 'jpeg', 'png'];
        $ext = strtolower(pathinfo(
            $file['name'], PATHINFO_EXTENSION
        ));

        $imageInfo = @getimagesize($file['tmp_name']);

        if ($file['size'] > 2 * 1024 * 1024) {
            $msg = "Poster must be under 2 MB!";
        } elseif (!in_array($ext, $allowed) ||
                  !$imageInfo ||
                  !in_array($imageInfo[2], [IMAGETYPE_JPEG,
IMAGETYPE_PNG])) {
            $msg = "Only JPG, JPEG and PNG images allowed!";
        } else {
            if (!is_dir('uploads')) {
                mkdir('uploads', 0755, true);
            }

            $poster = uniqid('poster_', true) . '.' . $ext;
            $path = 'uploads/' . $poster;

            if (move_uploaded_file($file['tmp_name'], $path)) {
                $stmt = mysqli_prepare(
                    $conn,
                    "INSERT INTO events
                    (event_name, event_date, description, poster)
                    VALUES (?, ?, ?, ?)"
                );
```

```
                mysqli_stmt_bind_param(
                    $stmt, "ssss", $name, $date, $desc, $poster
                );

                if (mysqli_stmt_execute($stmt)) {
                    header("Location: index.php");
                    exit;
                } else {
                    unlink($path);
                    $msg = "Event could not be saved!";
                }
            } else {
                $msg = "Poster upload failed!";
            }
        }
    }
}
?>
